JULY 5, 1950.

HONORABLE HARRY S. TRUMAN, PRESIDENT OF THE UNITED STATES -
THE WHITE HOUSE WASHINGTON, D.C.

DEAR SIR:

We take the liberty of sending you, on the two enclosed pages, a communi - cation which we believe to be of extreme importance to national safety. We believe that you will take the time to read it, and that you will do so open-mindedly and without prejudice.

We wish to assure you, that the Associates of the Borderland Sciences have no axe to grind, serve no special interests, and seek no advertisement of their organization, or of themselves as individuals. Many of the members are professional workers and 'non-professional' scientific investigators, and the Association is non-profit and devoted to public service.

More than four years ago, the Directors and Associates began a study of the remarkable communications received through the deep trance medium Mark Probert of San Diego, Calif. Thousands of pages of these have since been printed, and have engaged the attention of many highly educated and scientifically trained students of such matters. The records of these four years show, that through this medium - ship we are dealing with a number of fully integrated, well-informed and highly intelligent human personalities. They have been found to be both learned and honorable persons, not given to extravagance, and eager to serve the true interests of humanity. The information they have given, and the few predictions they have made have proven uniformly correct. Among other things, we have received from them the only intelligent and satisfactory explanation known in the world today, concerning the so-called flying discs and other strange sky phenomena.

On July 4th, 1950, certain of these communicators discussed, by clairaud - ient means, the situation between this country and Russia. It is this communication which we are now offering for your consideration. You are, of course, well aware that similar 'supernormal' sources of information are and have been freely employed by other nations.

Sir, this is a matter of most grave import. These invisible friends offer us an invaluable store of vital information and a source of incalculable assistance. Yet ignorance and prejudice prevent them and us from effective service. We ask you in the name of our people and of humanity to examine their utterances, check them by any and all means available - and if you find them worthy, call upon them and us for future information. May you be impressed NOW with what the future will certainly demonstrate - the 'top priority' in importance of this present letter.

Respectfully Meade Layne
Meade Layne, M.A. etc.
Co-Director, BSR Associates

JUL 4 - 1950

"The bouncing light over Alaska is to warn the Americas that Alaska is very likely to be attacked at any time. Be not fooled by those who cry that Russia is not prepared for war. We tell you she is, and is very willing to prosecute it to the fullest. Remember Nostradamus, "and the red hordes shall come down from the North". Russia IS at war, and is lending everything toward its continuance, ex - cept open declaration of same. The times of nations declaring war before attacking, are past. If a nation is not prepared for attack at any given moment, she may as well consider herself already taken over or destroyed. Now, one thing more. The Etheric Guardians are working hard to discourage the use of atomic power as a weapon of war. There is, of course, a considerable drawback to not using it: and that is, the holocaust will last considerably longer, and the general physical and mental suffering will be prolonged."

"RUSSIA IS AWARE that she must not expend her strength in the defense of her satellites, but must concentrate all her power in an attack on the American con - tinent, bringing the war home to America, as the latter did to Germany. The FIRST ATTACK will be upon Alaska by stratosphere rockets from Siberian bases. Following this will be mass attack by air, bombing and parachute troops. Following this will be the sea operations. Attacks by sea and air on American forces in the East - Japan, Korea, Formosa, will be made in strength. The present trouble in Korea is a feint and a test, and an effort tofind out how much strength the U.S. is willing to divert from the mainland.

Msjor events here referred to are clearly forseen by observers on the etheric, but the minds devising their strategy are eccentric and largely unpredictable, so

that accurate time prediction becomes impossible. . . As to the role of the flying discs and similar etheric craft, the Americans must not be diverted by them, nor attack them; they are not of Russian origin, and NOT hostile. Observers from our side of life are convinced that there will be impartial intervention by the Etherians, in case atomic weapons are used in this impending war.

"Back in 1947, on March 4, we warned those who would listen that all China would go Communistic. If any in high places knew this to be true they did little or nothing about it, and truthfully it did not matter greatly, for China is a dying nation. It has been in political corruption and general decay for well over a thousand years. Had General Stillwell been listened to -- but it is now too late to change the situation, at least until Russia is beaten and the communistic ideology destroyed in that country, which is the heart and core from which spread all the malignant tentacles of communism . . .

"The winning back of Korea will not settle the question of communistic might in the world today. The communists will have to be driven entirely from Korea, and if this is done it will have to be done in Formosa. Eventually it will have to be crushed in all China, or Britain will be forever sitting on an uneasy seat in Hongkong.

"In case of world-wide war Tito will join the Western bloc against Russia, but we must advise that Tito is very tricky and will have to be watched.

"Even now, trouble is fermenting in Iran.

"There is a vast underground in Russia that may prove of great value should Stalin start open war.

"My friends, we tell you the Americas are holding the only torch of light in the world today. It is the light of freedom. Should it go out, the world will be plunged into darkness for a thousand years.

"May the light of wisdom attend all your acts".

(Professor Alfred Luntz)

NOTE: This communicator held degrees from Oxford and Heidelberg. Our long records of his communications show him to be a highly informed and accurate observer of international affairs.

The foregoing communications were received through deep-trance mediumship and by the spoken words of the Controls. The medium (named on our first page) gladly offers his services, without payment or public recognition, in the cause of national defense - as do also the Directors and numerous Associates of the Borderland Sciences - to any properly constituted authorities of the United States Government who are properly informed as to the use of 'psychic' or 'mediumistic' communication. The Director takes this opportunity to add, that this mediumship is probably the best authenticated and most valuable in the United States, if not in the entire world - and hence offers a unique and invaluable source of information and advice.

M.L. (Director)
